

# Veterans for America

Curtis Mueller is an exceptional individual who has impressed me greatly from our first meeting.

I agreed to help him with his Campaign as a City of San Antonio, District 4 Councilman Candidate.

Curtis's business expertise and administrative skills are exceptional. Curtis is very professional in the work force with great business ethics and superior communication skills. While Curtis has worked mostly with upper-management individuals, I have taken notice how well he communicates with everyone that he meets. He has a special gift in regards to communicating and interacting with people in general. Lots of eye contact and listens to what people are saying to him. He is very polite and has a great positive mental attitude. Curtis will go the "extra mile" whenever he has a job assignment or task put in front of him. Another great quality I would like to add is his punctuality. Curtis is always at business meetings or important appointments 20-30 minutes early.

In closing, I would like to add that Curtis has been working with Veterans for America in the Administration side of the organization as a volunteer. His commitment to helping others is to be commended. Veterans for America, is grateful for his expertise and assistance.

Sincerely,

Lon Jett IV President, CEO
